INSTRUCTIONS

SWIVEL

Step 1

Attach any single leash to the swivel of the coupler.

Step 2

Attach the carabiners from the coupler to the dogs collars.

IMPORTANT !!!

To protect your leash
ALWAYS grab the handle
from the upper side.

ADJUSTING THE COUPLER

By untying the 2 knots, one on every split, you can give one of your dogs more or less space to move.

Meet Oscar

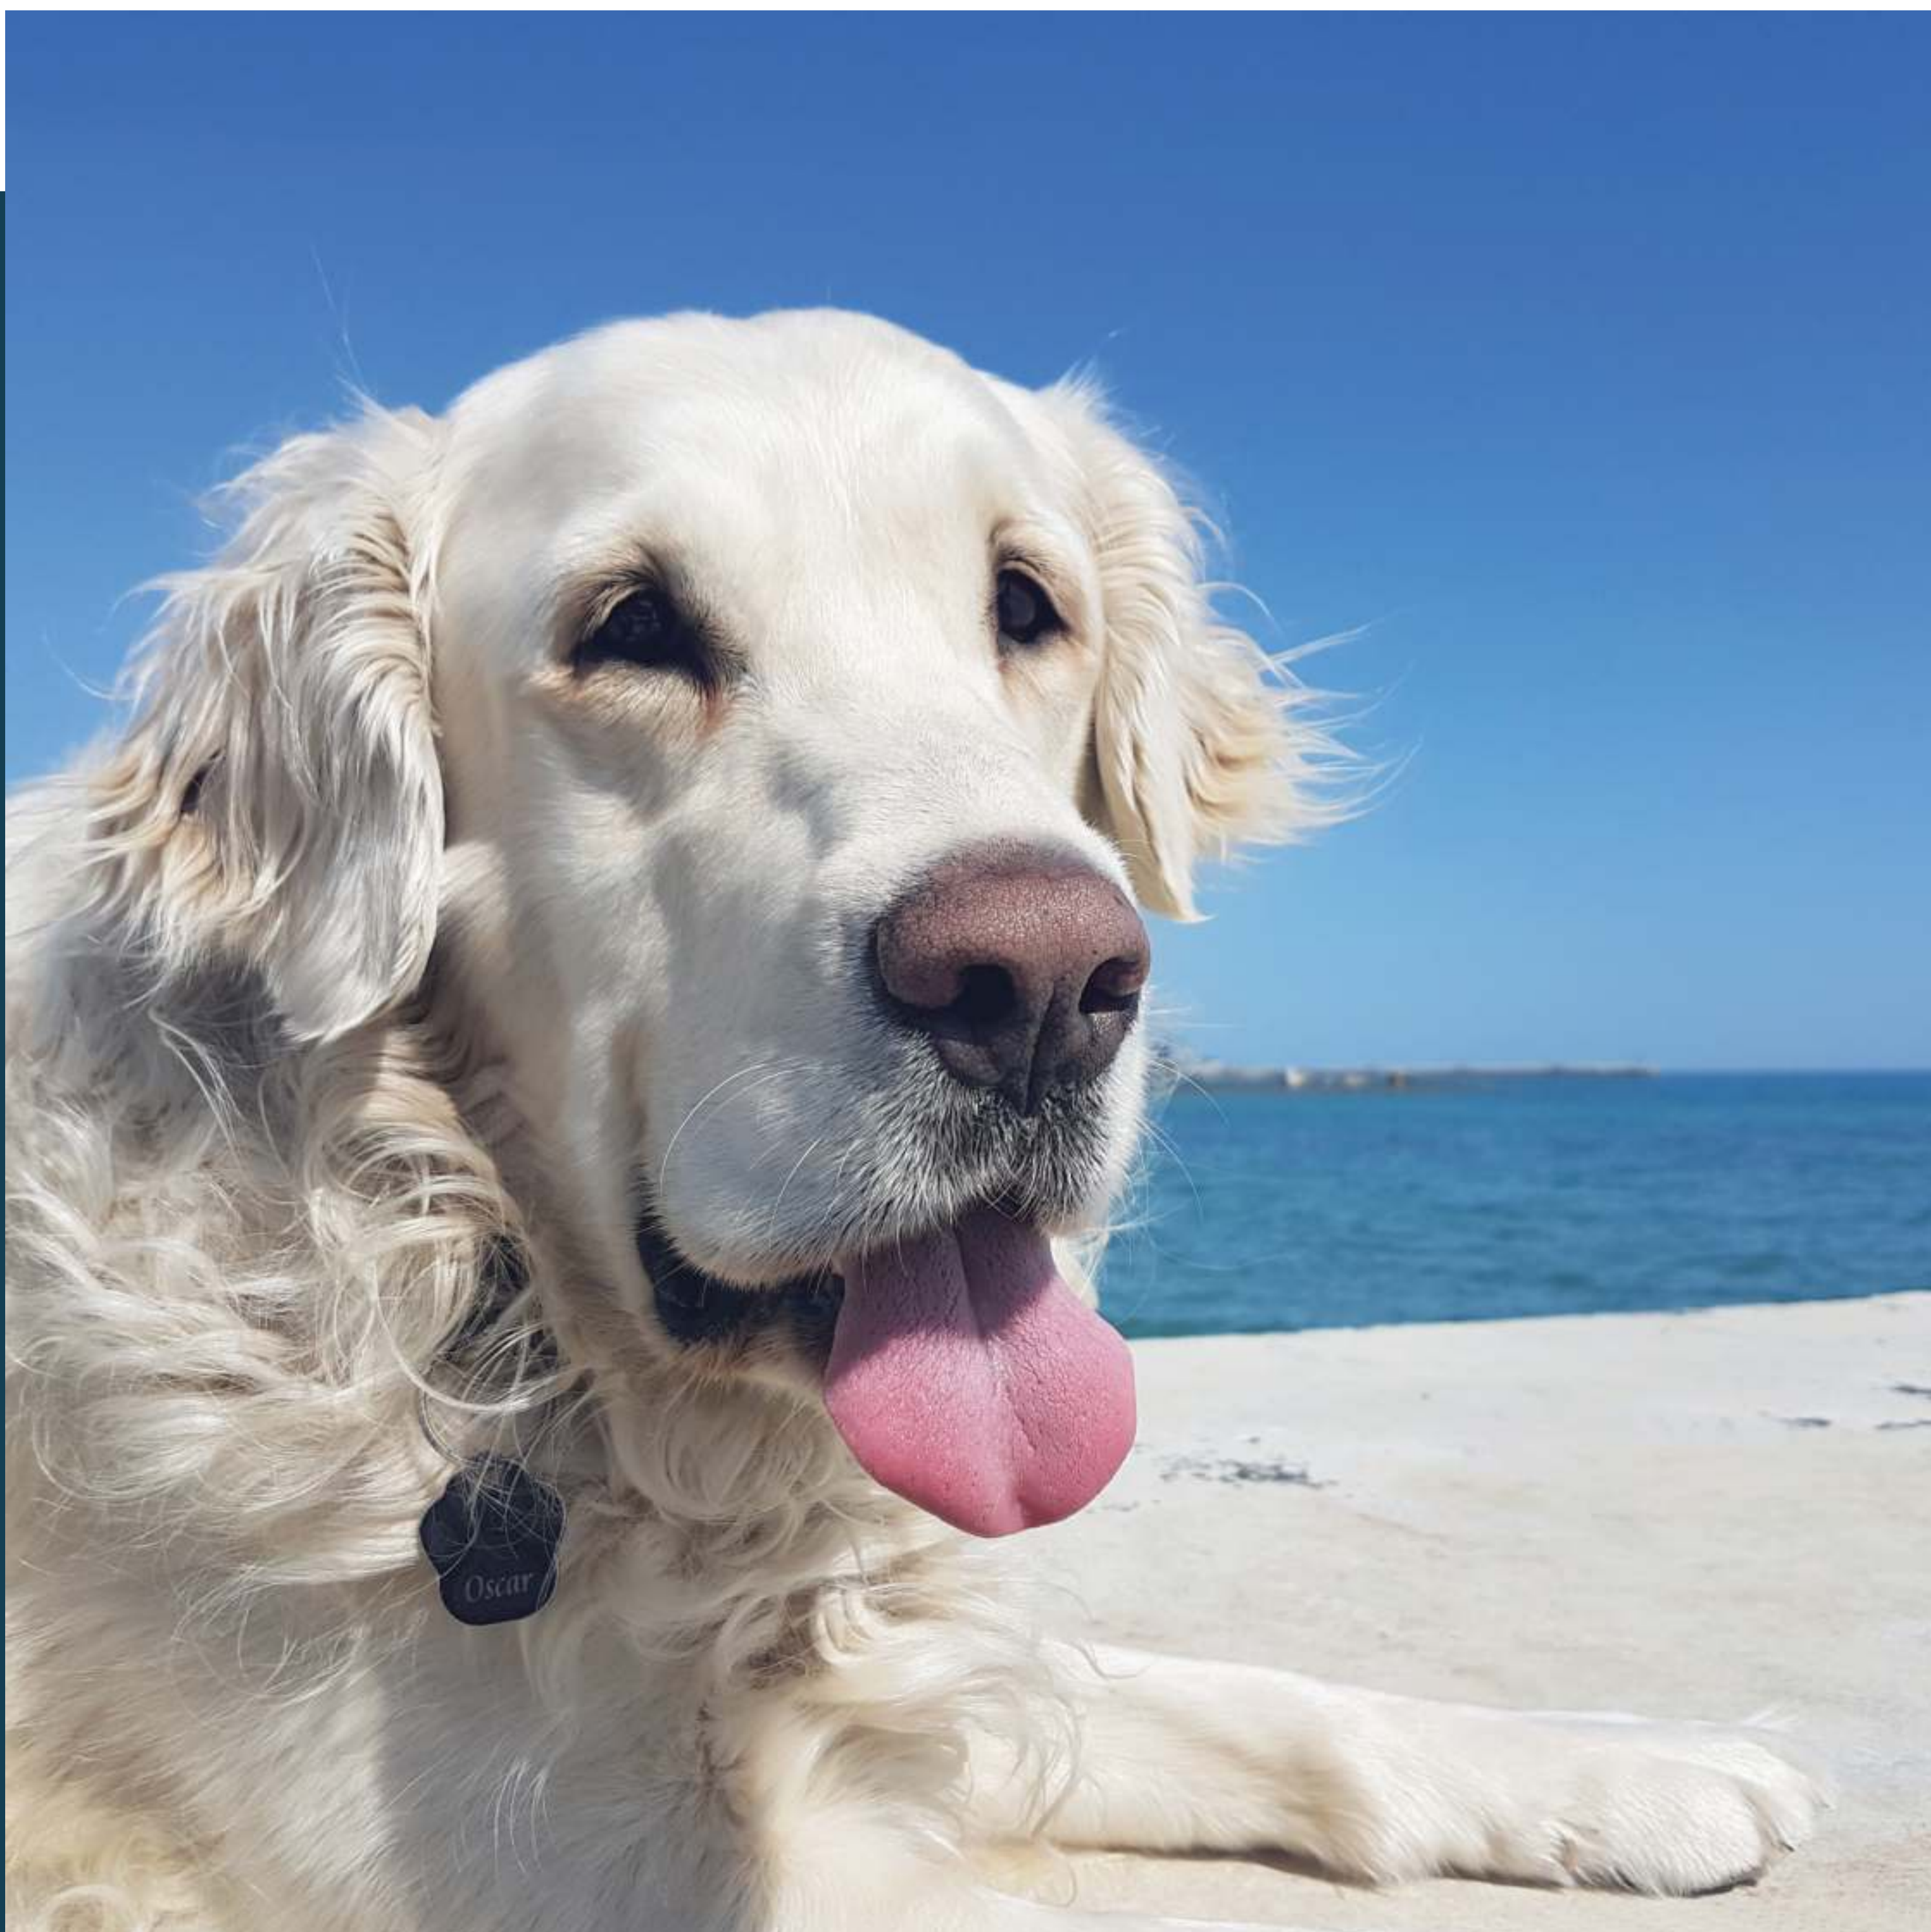

THE STORY BEHIND THE BRAND

Oscar is an approximately 7-year-old dog, who weights 80 pounds. He is full of energy, happiness and love. And he likes traveling! Even if the car is not one of his favorite friends, Oscar is always excited when it comes to visiting new places and enjoying new adventures.

The sad part of the story is that Oscar was abandoned and ended up in an insanitary shelter, where he was scheduled for euthanasia. Still, his life took a different turn when he was rescued by a couple of animal lovers, who already had two dogs - a Golden Retriever and a Labrador.

Oscar was so scarred in the beginning, both physically and mentally. The streets and the shelter had left him insecure, scared, traumatized and skinny. But soon he found his true, healthy self and became the happiest puppy in the world!

However, being a large dog with endless amounts of energy, Oscar had troubles walking on a leash. After trying multiple uncomfortable leashes, all affecting both Oscar's neck and his owner's wrists, Christian, Oscar's adoptive father and founder of Pet Dreamland, decided to design a leash that would be comfortable for all those enthusiastic dogs like Oscar. Because all dogs should run to maintain their health and prevent arthritis, heart diseases and other problems.

Oscar is now a happy dog who enjoys his owner's long walks during his travels or around his home.

Every Soul Deserves a Better Life

Our company has visions.

We don't dream of success. We dream of happy animals and satisfied animal owners. We love all animals and we believe that any animal deserves to be safe, happy and loved. Stray dogs, abandoned pets in shelters, lucky dogs who have a loving home. Every single one of those souls deserves a better life. If you are here, it means you think the same.

Love is All We Need

We design all of our products with love and care. We want to build the most reliable, innovative, practical and playful products. We hope that our products will make your life and your pet's life much easier and happier.

~

So, welcome to **Pet Dreamland!**
